| Overall average speed (mph) | 23.5 | 20.3 | 18.5 | 33.2 | 21.3 | 31.8 |

Definitions

| Transient queues | Queues caused by vehicles reducing speeds approaching junctions and by junction waiting <br> times, such as queuing at a red phase at a signalised junction - i.e. queues which dissipate. |
| :--- | :--- |
| Over-capacity queues | Queues generating as a result of junctions operating over-capacity - i.e. permanent queues. |
| Link cruise time | The time spent by vehicles travelling in free flow conditions. |
| Total Travel Time | The total queuing time of vehicles in the model (the sum of transient queues, over-capacity <br> queues, and the link cruise time). |
| Total travel Distance | The total distance travelled by vehicles in the model. |
| Overall average speed | The average speed of all vehicles- calculated by dividng total travel distance by total travel time. |
